PSNR ranking

Best rho: 0.45

Best PSNR: 31.152 dB

rho=1 PSNR: 30.457 dB

Change: +0.695 dB

Only lambda(x) is changed: lambda_rho(x) = rho x lambda_C60(x). Metrics use original reconstructions; displayed intensities fixed to [0,1]. This is a per-image GT-guided sweep.
